Journal of Neuroscience Methods, 33 (1990) 257–258
Elsevier

Contents of Volume 33

Number 1 – July 1990

Research papers

An improved system for single unit isolation from multiunit nerve recordings by velocity analysis
M. Brunner, G. Karg and U.T. Koch (F.R.G.) 1

A neurofibrillar staining method for retina and skin: a simple modification for improved staining and reliability
L.C.L. Silveira and V.H. Perry (Brazil, U.K.) 11

Age-related features of the resting and P300 auditory evoked responses using the dipole localization method and cortical imaging technique
R.D. Sidman, M.R. Ford, G. Ramsey and C. Schlichting (U.S.A.) 23

Methods for estimating release rates during high frequency quantal secretion and for testing such methods
W. Van der Kloot (U.S.A.) 33

Fast cyclic voltammetry: improved sensitivity to dopamine with extended oxidation scan limits
S. Hafizi, Z.L. Kruk and J.A. Stamford (U.K.) 41

Easily-implantable electrodes for chronic recording of electromyogram activity in small fetuses
I.R.C. Cooke, V. Brodecky and P.J. Berger (Australia) 51

A technique for controlling the membrane potential of neurons during unit recording
R.D. Andrew and M. Fagan (Canada) 55

Confocal scanning laser microscope images of hippocampal neurons intracellularly labeled with biocytin
J.S. Deitch, K.L. Smith, C.L. Lee, J.W. Swann and J.N. Turner (U.S.A.) 61

Short communications

Preservation of the NMDA response of neurons acutely dissociated from the mature guinea pig hippocampus
A.R. Kay and J.A. Connor (U.S.A.) 77

Use of brainstem flat-mounts for visualizing DiI-filled axons in the developing rodent visual system
R. Erzurumlu, S. Jhaveri and G.E. Schneider (U.S.A.) 81

Announcement 91

Number 2,3 – August 1990

Publisher's Announcement iii

Research papers

Primary culture of astrocytic glial cells from rainbow trout, *Salmo gairdneri* L., brain
D.R. Tocher and R. Wilson (U.K.) 93

Dye-induced photopermeabilization and photodegeneration: a lesion technique useful for neuronal tracing
S. Picaud, H. Wunderer and N. Franceschini (France, F.R.G.) 101

Optimization of differential immunogold-silver and peroxidase labeling with maintenance of ultrastructure in brain sections before plastic embedding
J. Chan, C. Aoki and V.M. Pickel (U.S.A.) 113

Cresyl violet: a red fluorescent Nissl stain
A. Alvarez-Buylla, C.-Y. Ling and J.R. Kirn (U.S.A.) 129

Neuron simulations with SABER
N.T. Carnevale, T.B. Woolf and G.M. Shepherd (U.S.A.) 135

A new medium for in vitro peripheral nervous tissue myelination without the use of antimitotics
P.J. Armati, A.L. Constable and F. Llewellyn (Australia) 149

Measurement of single channel open probability with voltage ramps
A. Carl and K.M. Sanders (U.S.A.) 157

Chemical brain stimulation as a means to circumvent electrical stimulation artefacts in single-unit recording studies of evoked vocalization
A. Kirzinger and U. Jürgens (F.R.G.) 165

A slice preparation preserving the callosal projection to contralateral visual cortex
R.L. Berry, A. Nowicky and T.J. Teyler (U.S.A., U.K.) 171
A simple, inexpensive method of monitoring brain temperature in conscious rodents
K.H. Neill, B.J. Crain and J.V. Nadler (U.S.A.) 179
High resolution recording of asymmetry currents from the squid giant axon: technical aspects of voltage clamp design
I.C. Forster and N.G. Greeff (Switzerland, France) 185
Combination of anterograde tracing with *Phaseolus vulgaris*-leucoagglutinin, retrograde fluorescent tracing and fixed-slice intracellular injection of Lucifer yellow
F.G. Wouterlood, B. Jorritsma-Byham and P.H. Goede (The Netherlands) 207
A simple quantitative dot-immunobinding assay for glial and neuronal marker proteins in SDS-solubilized brain tissue extracts
S. Wang, L.E. Rosengren, J.-E. Karlsson, T. Stigbrand and K.G. Haglid (Sweden) 219
Monosodium urate test: a new analgesic test by crystal-induced monoarthritis in rats
T. Otsuki, Y. Agatsuma, H. Jokura, S. Sakurada, K. Kisara and T. Yoshimoto (Japan) 229
Miniaturized optoelectronic system for telemetry of in vivo voltammetric signals
M.G. De Simoni, A. De Luigi, L. Imeri and S. Algeri (Italia) 233
A slope-based approach to spike discrimination in digitized data
J.H. Cocatre-Zilgien and F. Delcomyn (U.S.A.) 241
